

Brookfield Chiropractic is ready to grow, and we are looking for a Motion Palpation proficient chiropractor to join our team.

Your role will involve developing a patient base, treating patients, completing and maintaining patient documentation. We help market your practice, answer your phones, bill your insurance, collect your money and teach you our systems of practice management.

Your income will be directly correlated with your drive to build your practice. You've earned a chiropractic degree, and now need the opportunity to practice without worrying about the headache of running a business.

If this sounds like you, please call (262) 754-5500.
