

Exciting opportunity in busy Columbia MO sports med practice!

Focus On Health is looking for passionate doctors that want to cultivate our profession! We are seeking responsible professionals that are coachable and adaptable to our growing clinic.

Candidates should have a strong diagnostic skill-set with a functional movement foundation, possess above average skills in spinal and extraspinal mobilizations, and have a background in soft tissue therapy and functional rehabilitation.

Ideal candidates should exhibit the following:

- Attended at least one Motion Palpation seminar
- Attended at least one functional movement analysis seminar (ex: SFMA, FMS, MPI Upper or Lower Dynamic Assessment)
- Attended at least one soft tissue assessment/treatment based seminar (ex: ART, Stretch to Win)
- Attended at least one instrument assisted soft tissue mobilization seminar ( ex: FAKTR, Graston)

We realize our expectations are high, and because of that, we consider applicants who have not had formal training in the above list. Our goal is to exceed our patient's expectations and motivate our doctors to pursue the highest quality continuing education. If an applicant has not completed all of the above requirements, we ask that you do so within the first year of your employment.

If you are interested in a position, please send your resume or CV to Curt Kippenberger at [drcurt@focusonhealthchiro.com](mailto:drcurt@focusonhealthchiro.com).
