

My name is Kirk Iodice and I own a multi-specialty chiropractic clinic located in Olathe, KS (just south of KC). We currently have 2 doctors; I specialize in sports chiropractic care and the other DC specializes in functional medicine and low force techniques.

We are looking to add 2 doctors over the coming months who would be interested in long term, FAIR associate doctor positions with specific specialties.

-One position is a functional/integrative doctor with ART certifications and knowledge in functional assessments being minimum requirements. I can provide much clinical training for this position.

-We also seek a doctor trained and experienced in acupuncture who is knowledgeable and confident enough to build this style of practice.

Clinic information: I opened Advanced Healthcare & Sports Injury, PA in 2008 and have experienced much success. I have been the official chiropractor for the minor league baseball team, the KC T-Bones since 2009, I served for a season as official chiropractor to KC Wizards (now Sporting KC), and we have been the team doctor for the KC Smoke Elite Running Club since 2013, to name a few of our accolades. If you want my brag sheet, click this link http://kchealthandsport.com/our_doctors/dr_kirk_iodice . In other words, we are a stable and successful practice! We are not looking for doctors to come and go; hence, our objective is to make fair contracts that encourage long-term team building and reward hard work.

We have recently expanded our office from 1,300 to 3,300 sq ft and it is beautiful. Please contact me if you or someone you know would be interested in one of these unique opportunities. Timeframe for hiring is now through 2017. We also offer benefits!
