

My name is Kirk Iodice and I own a functional chiropractic clinic located in Olathe, KS (just south of KC). We are looking to add 2 doctors over the coming months who would be interested in long term, FAIR associate doctor positions.

-One position is a functional/integrative Dr. w/ ART and MPI certifications being minimum requirements. I can provide much clinical training for this position.

-The other is for a functional medicine doctor/chiropractic internist. DABCI is preferable, but the doctor must demonstrate top-notch proficiency in diagnosis and treatment methods in functional medicine. Also preferable is acupuncture certification.

Clinic information: I opened Advanced Chiropractic & Rehab in 2008 and have experienced much success. I have been the official chiropractor for the minor league baseball team, the KC T-Bones since 2009, I served for a season as official chiropractor to KC Wizards (now Sporting KC), and we have been the team doctor for the KC Smoke Elite Running Club since 2013, to name a few of our accolades. If you want my brag sheet, click this link <http://www.advancedchiropractickc.com/doctors/iodice> . In other words, we are a stable and successful practice!

We are not looking for doctors to come and go; hence, our objective is to make fair contracts that encourage long-term team building and reward hard work. We are growing and will be moving into a much larger facility in less than one year.

Please contact me if you or someone you know would be interested in one of these unique opportunities. Timeframe for hiring is now through 2015.

We also offer benefits!
