

Multi-disciplinary practice in Syracuse, IN is looking for a Motion Palpation trained DC who is proficient in ART and McKenzie Methods. Our office currently has one Chiropractor, one Acupuncturist, and one Massage Therapist. We are looking to build our team by adding another Chiropractor who is looking for long-term employment.

We currently service multiple ART Corporate Solutions contracts, making Full-Body ART certifications beneficial, but not an immediate requirement. Certifications can be obtained after employment for the right candidate. Candidates must be willing and motivated to continue and improve their education and manual skill levels throughout their time of employment.

Our practice is located in a small lake community, between Ft. Wayne and South Bend, along the shores of Lake Wawasee, the largest natural lake in Indiana. Our doctors and staff are very involved in our local community. A desire for small town community involvement is a plus for any serious candidate.
